

New Hampshire Medicaid Brand over Generic List 10.1.2025

Not All Generics are Preferred In some instances, the State prefers the multi-source brand name drug over its generic equivalent because the branded drug is more cost effective than its generic counterpart.

- Pharmacy providers must enter a **DAW code of 9** on the claim to have it correctly priced. If any problems occur during the claim adjudication of Preferred Brands, pharmacy providers must contact Prime's Technical Call Center at: 1-866-664-4511. The call center is available 24 hours, 7 days per week.
