

New Hampshire Fee For Service Diabetic Supply List

September 22, 2026

The State of New Hampshire Department of Health and Human Services contracts with Prime Therapeutics to manage a diabetic supply program which applies to FFS New Hampshire Medicaid recipients without other insurance or Medicare coverage **and** for claims processed through the pharmacy benefit. Medicaid managed care organization (MCO) recipients are not included in the diabetic supply program.

Abbott and Roche are currently the preferred providers of traditional blood glucose monitors and strips. Dexcom and Abbott are the preferred continuous glucose monitoring systems. CeQur and Insulet are the preferred insulin pumps. The covered list of reusable insulin pens, lancets, lancet devices, and pen needles are also listed. New Hampshire Medicaid no longer covers diabetic supplies for non-preferred products unless the recipient's physician has requested an override through Prime Therapeutics Management.

Please be advised that the New Hampshire Medicaid Diabetic Supply program has been updated and a full product listing is provided starting on page 2.

For additional information about this program, please visit <http://nh.primetherapeutics.com>.
